Introduction

Dear customer!

Your new GreenTec machine is constructed with background in more than 20 years experience with tractor mounted machines to maintenance of green areas. This machine is produced by the latest technology and recognized safety regulations, standards and regulations.

We want to make a product available in such a way, that neither the use of the machine during transportation or maintenance of the machine causes any damage or misunderstandings.

This parts list contains information that are important and useful for maintaining your GreenTec machine's reliability, dependability and value.

You are welcome to visit our website www.greentec.eu - where the login via the dealer's access gives you the latest updates on instructional and part books on our entire product range. The password for dealer log-in: PUBLISHER

We hope, you will be pleased with your new GreenTec machine.

Best regards,

John Christensen
Sales Director GreenTec A/S

GreenTec's vision is to develop and sell quality machines for the maintenance of green areas, including in agriculture, in industry, at airports and in the local sector. Through innovative product development, we will strive to become a leader in our field.

All machines are developed in a simple and functional design in close cooperation with dealers and end users. It is our goal to cover every need in the market segment with preferably 2 different solutions. In-depth analysis of requirements and serious advice to the customer is offered the best solution, where individual needs can be met through the modularity of the product program. Our goal is also to offer the best possible after sales service, and a quick and efficient spare parts supply.

Useful information

Before using the machine for the first time, it's the seller's responsibility that the buyer is given this parts list. If the machine is resold, the parts list must be transferred to the new owner.

Please fill out the list below to ensure that the necessary information is at hand when ordering spare parts etc.

Bei Erstbefüllung / Nachschmierung
achten, daß Fett austritt !

Motor levererad som reservdel:

Denna motor levereras alltid standard som tillverkaren Bondioli har monterat den från fabrik.

Denna motor används till olika Spearhead-maskiner så det kan hända att rotationsriktningen måste ändras.

Detta görs genom att skifta tryck (P) och retur (T) slangarna från bäraren samt genom att byta/skifta sida på övertrycks-/anti-cavitations-ventilen, se nedan.

Denna ventil ska ALLTID sitta monterad på tycksidan (P).

Kom ihåg !!!!! Fyll upp motorn med olja inna uppstart.
